Alexandria, VA 22313

Sir:

In response to USPTO communication dated Dec. 28, 2004, please amend the application as follows:

IN THE SPECIFICATION:

On page 4, line 2, after "surface", add --of a screen 52--. The complete paragraph beginning from the last three lines of the page 3 reads as follows:

--There are many applications for this invention. One is the creation of three-dimensional contour maps. Figure 5 shows the basic elements of a projection system combined with the computer controlled adjustable surface. Here the projector 51 shines an image of geographic features onto the adjustable surface 55. As an example, the surface can be programmed to produce mountain 57 and lake 53 and building 54 and airfield 56 can be projected onto the surface of a screen 52--
